GARAGE DOORS

The best option

RYTERNA

One-stop comprehensive solutions

A wide range of product portfolio: garage, industrial, high-speed doors, front doors, gates and fences. Comprehensive and matching solutions from one manufacturer.

Door durability

Extra thick panel tin skin on the outside and inside: 0.5 mm on embossed smooth, 0.7 mm on Slick design panels. Durable and more secure garage doors have longer service life.

Sealing options

All-round perimeter soft rubber sealing to prevent draughts.

Versatile colour options

We can paint in almost all RAL, NCS, and BS colours. A wide range of colour choices will fulfil the highest design requirements.

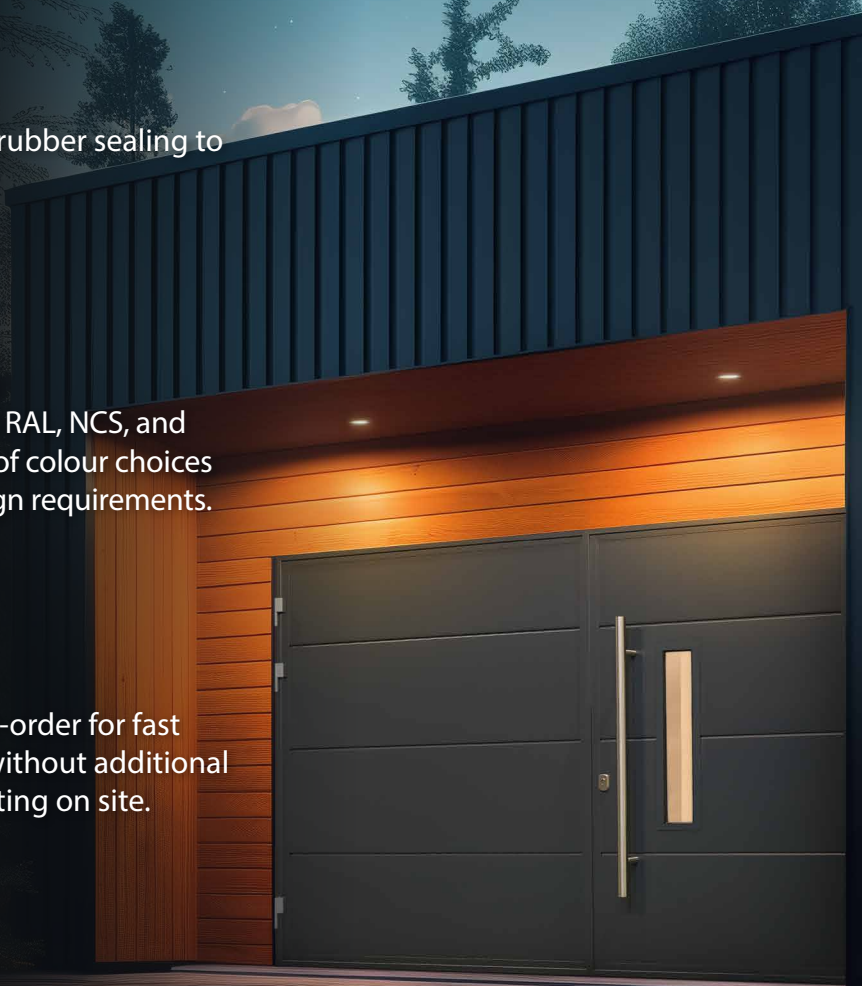

Custom sizes

All products are made-to-order for fast and precise installation without additional costs for cutting or adjusting on site.

Ergonomic packing

Our ergonomic packing allows for easy door handling and transportation without requiring specialised lifting equipment in the warehouse and on the installation site.

CONTENT

Traditional

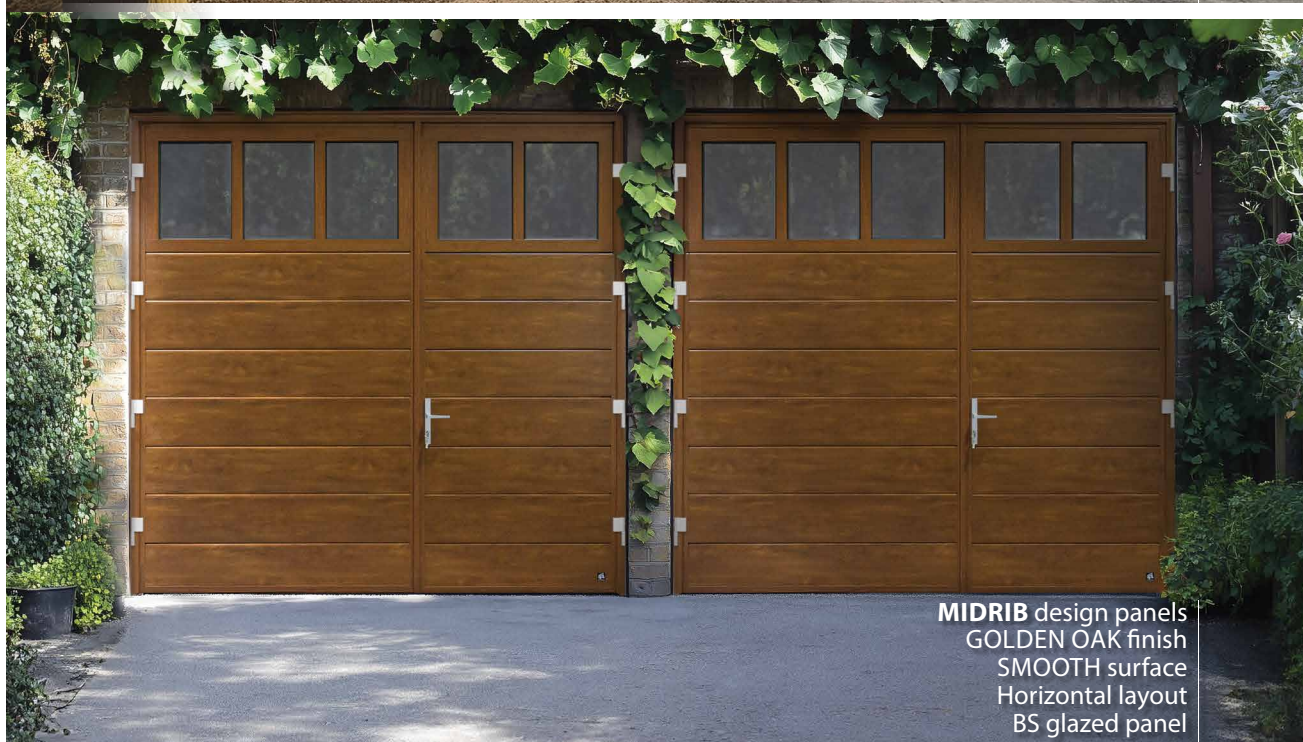

This is our timeless classic design door. This elegant door offers a perfect blend of tradition and modernity. Doors are made to enhance your home's beauty while providing exceptional functionality. Double-glazed panels can come in three different designs plain, 'cross', or BS. Choose clear, matt, obscure, or tinted glazing to suit your privacy and aesthetic preferences. Acrylic scratch-proof glazing is a standard, but optional safety glass is also available. Along with the almost endless colour options, you can get a perfect match between the garage door and the surrounding setting.

Modern

Our Modern design door combines modest luxury with exceptional functionality and performance. Elegant Vertical Layout gives a sleek and contemporary look. Slim Glazed Panels with different glazing options let the natural light inside while maintaining privacy. Brushed stainless steel pull handles are a perfect addition to enhance your kerb appeal.

Decor elements

Stainless metal decals give exceptional accents to your door. You can turn a standard appearance door into something individual. We offer a wide range of standardised designs along with the possibility to create your own. Playing with the combination of brushed stainless steel handles, stainless steel windows and metal decals you can get staggering kerb appeal.

Frame mouldings: this option allows the door to be fitted flush with the front wall, hiding any small gaps or crumbled brickwork. Same colour as the frame. On the left side: frame with moulding; on the right: without moulding.

2

The first door leaf can be left-hand or right-hand swing. The door split can be 50/50, 30/70, or any other reasonable proportion. Maximum leaf width: 1.5 metres.

3

As standard, a one-point lock is provided. For higher security, 3-point or Assa-Modular locks are available as options. All locks come with 5 keys.

4

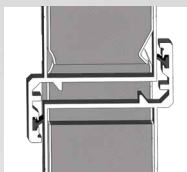

Adjustable aluminium alloy hinges with bearings. Standard colours: white, black, and silver.

5

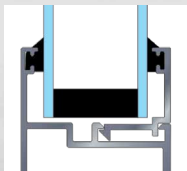

The canopy profile diverts rainwater from penetrating between the frame and the leaf.

6

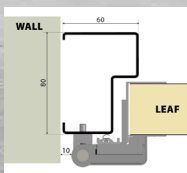

Improved C-shaped soft rubber sealing around the entire perimeter and between the leaves.

7

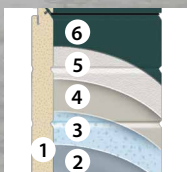

Scratch-proof, energy-efficient double glazing with acrylic glass.

8

Rebated, zinc-coated, robust, and maintenance-free steel frame. Painted the same colour as the door, or a different colour if specified.

9

Energy-efficient insulated door panels with a double steel skin filled with freon-free PU foam: 1 - 40 mm thick foam; 2 - steel; 3 - zinc; 4 - primer; 5 - finish coating; 6 - colour.

1

Clear, scratch-proof, matt, or obscure glazing. An internal cross can be added. Frames powder-coated door or different colour.

2-3

Optional espagnolette lock to keep the second leaf in the closed position.

4

Designed to make opening the second door leaf effortless. Standard option: integrated two shoot bolts on the second leaf.

5

Key cylinder with thumb-turn. Convenient option for quick door locking from the inside without a key.

6

Heavy-duty door stays hold the door leaf in the open position. Easy to lock and release. Safe to use, even on windy days.

7

Adjustable leaf opening angle from 90 to 140 degrees.

8

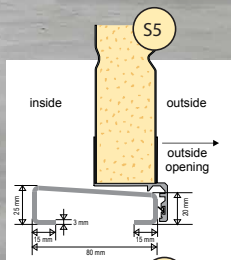

4 hinge bolts. Increased burglar resistance.

9

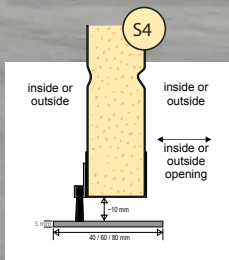

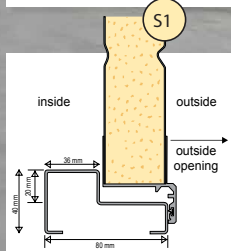

Stainless steel cover for the S5 threshold. Enhances the appearance of side hinged doors and protects the threshold paint from wearing off.

10

Standard S5 sloping threshold made from zinc-coated steel profile. Optional: stainless steel plated. S1 and S4 thresholds are also available. A 30 mm raised threshold is available.

Glazed panels

Glazed panels are powder-coated in a matching colour. Acrylic double-glazed windows can be clear, matt, obscure or tinted. We offer glazed panels with safety glass double glazing as well.

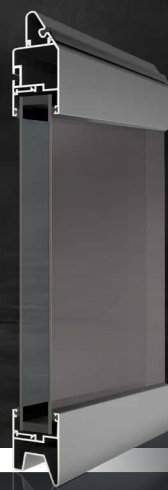

Clear

Matt

Obscure

Tinted

UPVC windows

UPVC windows are the cost-wise solution if you want daylight inside the garage or simply uplift the appearance of the garage door. Acrylic double glazing can be plain or with deco inserts.

Stainless steel windows

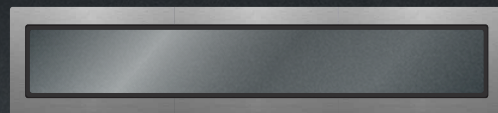

3 different shapes and 7 sizes of stainless steel windows will meet the most demanding design requirements. Square windows can be placed in a diamond shape and oblong windows - horizontally or vertically according to door layout.
